

**Group Members: Ivan, Rana, Sarra, and Ayesha**

**PYPx Elevator Pitch #1:**

***Grab the listener's attention:***

Ivan

- Did you know that 97% of the world's water is the ocean and 40% of the ocean is polluted by human activities?

***Explain your issue and its importance:***

Rana

The ocean is heavily polluted, and it's having a devastating impact. Marine animals and coral reefs are dying, which disrupts entire ecosystems. This contributes to the worsening of climate change and threatens to break the food chain. And sadly, these are just a few of the many serious problems we face.

***How will you find out?***

Sarraj

- Read books
- Research
- Ask knowledgeable people

***What action will you take?***

Ayesha

- Clean the beach
- Grow mangrove trees
- using renewable energy/materials and avoiding the opposite

Meaning of words

Devastating: really bad
